How to Approach the Winter Season Holiday Dinners within the Home 2021

- Families wishing to hold a holiday dinner must arrange prior approval from the home.
- Dining will be home specific depending on availability of space and ability to maintain the restrictions/policies, to insure resident, staff and visitor's safety.
- Fully immunized* family members are permitted to attend
- The dinner may be canceled by Administrator (following directions from the Public Health Authority) if the resident is symptomatic or isolated under Droplet/Contact precautions.
- Family members/visitors must wear masks and residents should be encouraged to wear a mask, unless actively eating or drinking.
- Unless assisting a resident with their meal, maintain physical distancing between all those attending the meal.
- Hand hygiene is required for the resident and family members before and after the meal, and as needed.
- Single packaged meals are recommended. In the event that food is brought to be shared, only one person will serve the food to all guests. Condiments must be single use packets.
- Home staff will clean and sanitize before and after every meal service using the approved products.
- Follow province-specific directives when managing residents who leave for holidays with family, it includes temporary absences (two or more days) or short-term absences (no overnight stay)

* Fully Immunized: A person who has received either both shots of the two dose vaccine or the one dose for the single dose vaccine, that's approved by Health Canada. Final dose was received 14 days ago.
